

# Go & Show: Classroom Implementation

Part of Tech Time: My Time in  
Kindergarten

# Go & Show:

## Classroom Implementation

Implementation in the

A brief look at how teachers apply a small part of Tech Time: My Time in Kindergarten in their own classrooms.

# What Is the Go & Show?

## Try Something Small

The Go & Show is a simple opportunity for teachers to try one routine or tool from the session. They choose something small: a QR code station, a digital routine, or an independence transition. The goal is to test, not perfect.

# What Do Teachers Do?

## Collecting Evidence

- Implement the chosen activity in their classroom
- Observe how students respond
- Collect simple evidence: a photo, short video, or reflection
- Share what they learned in the next check-in

# Why It Matters

## Collecting Evidence

- Go & Show helps teachers practice with support, notice what works in Kinder, and make real adjustments.
- It strengthens digital independence and blends smoothly into early childhood routines.
